JOINT COMMITTEE ON ATOMIC ENERGY

March 16, 1955

Executive Registry

6-7938

Honorable Allen W. Dulles
Director of Central Intelligence
Washington 25, D. C.

Dear Mr. Dulles:

The Security Subcommittee of this Committee contemplates holding hearings, largely in executive session, for the purpose of studying the control mechanism for atomic energy information.

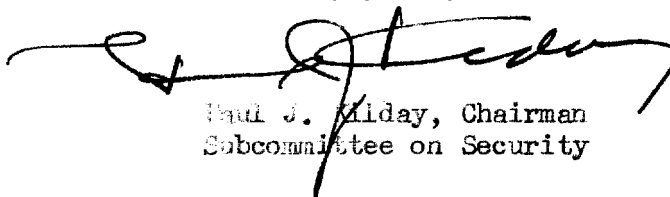

At the initial meeting of the subcommittee, the hope was expressed that your agency could provide us with the informal and yet extremely valuable type of briefing which was provided by Mr. [redacted] to the Committee's Special Panel on Continental Defense last summer. As you may know the panel members considered this the most valuable contribution to their efforts.

The subcommittee has in mind a briefing which would generally cover the scope and extent of world-wide accomplishments in the field of the peacetime uses of atomic energy.

I fully recognize the pressing matters which must be constantly before you and wish to assure you that the subcommittee will be satisfied if you designate a subordinate to conduct the briefings. The time and place of the hearing will be supplied to your agency by the staff of this Committee.

Thank you for your cooperation in this matter.

Sincerely yours,

Paul J. Kilday, Chairman
Subcommittee on Security
